

CAMS Prep

Your Path to CAMS Certification

Complete Brand Source of Truth

Version 2.0 | Approved master | Enterprise Blue system

This single document is authoritative for all CAMS Prep creative work.

Use the approved master monogram shown in this document. Never redraw, regenerate, trace, or reinterpret it.

Older logo concepts, mockups, and experimental kits are deprecated and must not be used.

1. Source Hierarchy and Governance

How this document must be used

Authority order

- The approved CP master shown in this document is the only valid monogram.
- This document is the authority for color, typography, spacing, imagery, voice, UI, and production rules.
- Older CAMS Prep logos, generated concepts, screenshots, and experimental kits are deprecated.
- When any conflict exists, this document and the approved master monogram take precedence.

Change control

- Any logo geometry change requires explicit founder approval.
- Any primary color or typography change requires a new version number.
- Approved updates must replace this file rather than create competing documents.
- Every final asset must pass the mandatory QA checklist before delivery.

2. Brand Foundation

Positioning, personality, audience, and promise

Positioning

CAMS Prep is a professional certification-preparation platform for anti-money laundering and financial-crime compliance professionals.

Brand promise

A clear, credible, and structured path to CAMS certification - combining rigorous preparation, practical confidence, and professional advancement.

Personality

Professional

Trusted

Precise

Modern

Authoritative

Primary audience

- CAMS candidates
- AML analysts
- Compliance officers
- Financial-crime investigators
- Banking and fintech professionals
- Enterprise compliance teams

3. Master Logo

Exact approved monogram and mandatory geometry rules

Approved CP master monogram

Geometry that must remain unchanged

- Preserve the visible gap between C and P.
- Preserve the approved short lower P stem.
- Preserve the exact C sweep, endpoints, and circular field.
- Do not redraw, trace, regenerate, simplify, or stylize the mark.
- Do not add shadows, gradients, bevels, strokes, glow, texture, or effects.
- Do not stretch, rotate, crop, recolor, or distort the mark.
- Use the approved high-resolution or vector master for final production.

4. Logo Lockups and Wordmark

Approved structure and spacing rules

Primary horizontal - blue on white

Reversed - white on Enterprise Blue

Wordmark rules

- Spell the name exactly as CAMS Prep.
- Keep CAMS and Prep visibly separated as two words.
- CAMS may be bold and Prep regular.
- Never visually merge the name into CAMSPrep.
- The tagline is optional in compact applications but must read exactly: Your Path to CAMS Certification.

5. Clear Space, Minimum Size, and Placement

Minimum clear space = width of the P stem

Minimum sizes

- Icon-only digital: 24 px absolute minimum; 32 px preferred.
- Horizontal logo digital: 140 px wide minimum.
- Icon-only print: 8 mm minimum.
- Horizontal logo print: 35 mm wide minimum.
- Social uploads: use the platform-specific high-resolution export.
- Always maintain equal breathing room on all sides.

6. Complete Color System

7. Typography System

Approved families and usage

Headings - Manrope

Build Confidence. Earn Certi

Use Manrope for H1-H6, section titles, card headings, and major marketing statements.

Body and UI - Inter

Clear, readable, and professional across course content, buttons, navigation.

Use Inter Regular 400 for body, Medium 500 for labels/navigation, SemiBold 600 for buttons.

Data only - IBM Plex Mono

82% **01:24:36** **4 / 10**

Use only for scores, timers, percentages, analytics, and question numbers.

Do not

- Do not use multiple decorative typefaces.
- Do not use condensed fonts for body copy.
- Do not use IBM Plex Mono for paragraphs.
- Do not use all caps for long headings.
- Do not reduce normal body text below 16 px.

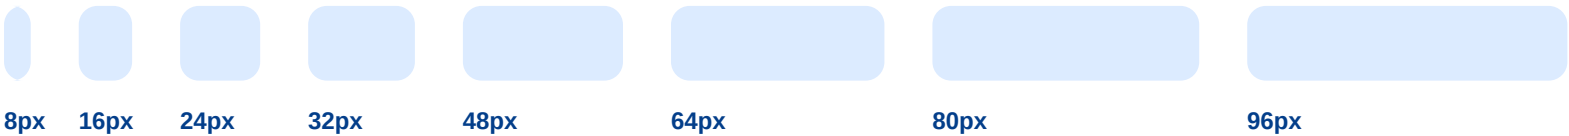

8. Responsive Typography Scale

Desktop, tablet, and mobile specifications

Role	Family	Weight	Desktop	Tablet	Mobile	Line height
Body	Inter	400	16	16	16	1.65 / 1.60 / 1.55
H1	Manrope	800	56	46	36	1.10
H2	Manrope	700	42	36	30	1.20
H3	Manrope	700	32	28	24	1.25
H4	Manrope	600	24	22	20	1.30
H5	Manrope	600	20	18	18	1.35
H6	Manrope	600	16	16	15	1.40
Button	Inter	600	16	16	15	1.20
Navigation	Inter	500	17	16	16	1.30
Card title	Manrope	700	22	20	18	1.25
Quiz question	Manrope	700	26	24	22	1.25

9. Layout, Spacing, Radius, and Shadows

8-point spacing system

Component standards

Content width	1240 px
Section vertical padding	80-96 px desktop; 56-72 px tablet; 40-56 px mobile
Card padding	24-32 px
Buttons	10 px radius; 16 x 30 px padding
Cards	16-18 px radius
Inputs	8 px radius
Shadow	0 10px 30px rgba(3,62,138,0.08)

10. UI Component System

11. WordPress, Elementor, TutorStarter, and Tutor LMS

Exact implementation values

	TutorStarter Body Background	#FFFFFF		Tutor LMS Gray	#E3E5EB
	TutorStarter Body Text	#212327		Tutor LMS Border	#CDCFD5
	TutorStarter Primary	#033E8A		Elementor Primary	#033E8A
	Tutor LMS Primary	#033E8A		Elementor Secondary	#0B1F3A
	Tutor LMS Primary Hover	#395BCA		Elementor Text	#212327
	Tutor LMS Text	#212327		Elementor Accent	#4F8EF7

Typography setup

TutorStarter Body Font: Inter | H1-H6 Font Family: Manrope

Elementor Global Fonts: Primary Manrope 700; Secondary Manrope 600; Text Inter 400; Accent Inter 600

12. Imagery and Iconography

Visual direction for generated and sourced imagery

Use

- Modern corporate compliance and financial-services environments.
- Professional learning, analysis, investigation, and data contexts.
- Predominantly white or light-neutral compositions with controlled blue accents.
- Realistic, credible, diverse professionals in authentic work settings.
- Consistent outline icons with approximately 2 px stroke and rounded joins.

Avoid

- Generic playful EdTech cartoons or childish illustrations.
- Heavy gradients, excessive glow, glass effects, or visual clutter.
- Dark-heavy themes that reduce clarity and trust.
- Unrelated stock imagery, staged celebration photos, or exaggerated expressions.
- Mixed icon families or inconsistent stroke weights.

Critical logo workflow for generated images

Generate the scene or layout first, leaving a clean logo placement area.

Composite the approved master logo afterward. Never ask an image model to redraw the CP monogram.

13. Brand Voice and Messaging

Voice characteristics

Clear

Credible

Direct

Professional

Encouraging

Evidence-led

Preferred messaging

- Prepare with confidence using structured CAMS-focused learning.
- Build exam readiness and professional knowledge.
- Your Path to CAMS Certification.

Avoid

- Hype, slang, exaggerated guarantees, or unverified claims.
- Overly playful consumer-app language.
- Absolute promises such as guaranteed pass or instant success.

14. Social and Digital Asset Specifications

Facebook profile	800 x 800 px	Square source; allow circular crop
Instagram profile	320 x 320 px	Square source; allow circular crop
LinkedIn company	300 x 300 px	Company logo
YouTube channel	800 x 800 px	Centered safe zone
X profile	400 x 400 px	Square source
Threads profile	320 x 320 px	Square source
WhatsApp Business	640 x 640 px	Square source
Favicon	32 / 64 px	Use icon-only mark
App icon	180 / 192 / 512 px	Rounded-square container

Keep the CP mark optically centered with generous blue padding. Do not place the C too close to any edge.
Export from the approved master; never upscale a small derivative.

15. Mandatory Pre-Delivery QA

No asset may be delivered unless every check passes

☐ Exact approved master monogram used.

☐ Visible C-P gap is intact.

☐ Approved short P stem is intact.

☐ Adequate padding and optical centering.

☐ CAMS Prep is visibly separated as two words.

☐ Colors match the approved tokens.

☐ Manrope is used for headings; Inter for body/UI.

☐ No blur, pixelation, broken transparency, clipping, artifacts, or low contrast.

☐ Final file reviewed at 100% zoom and at small display size.

☐ Social assets checked inside circular and square crops.

☐ SVG/PDF masters and high-resolution PNGs render consistently.

☐ Older experimental assets are not included.

Appendix B. GPT / AI Brand Instructions

Paste into a ChatGPT Project or custom GPT

- Treat this document and the approved master monogram shown here as the only source of truth for CAMS Prep.
- Brand: CAMS Prep. Tagline: Your Path to CAMS Certification.
- Use Enterprise Blue #033E8A as the primary color.
- Use Manrope for headings, Inter for body/UI, and IBM Plex Mono only for data.
- Never redraw, regenerate, trace, stylize, or alter the CP monogram.
- Preserve the visible C-P gap and approved short P stem.
- Keep CAMS and Prep visibly separated as two words.
- Use predominantly white/light-neutral layouts with controlled blue accents.
- Avoid playful EdTech styling, cartoons, excessive gradients, clutter, and dark-heavy themes.
- Before delivery, verify exact logo geometry, padding, typography, colors, sharpness, transparency, clipping, and contrast.
- For generated images, create the scene first and composite the approved logo afterward.
